

"I want every child to be able to aim for the stars, and to be supported in reaching them." (David Laws, Education Minister, 2012). Since September 2013 each school has received funding called Sports Premium. The funding is to make 'additional and sustainable improvements to the provision of PE and sport for the benefits of all pupils to encourage the development of healthy, active lifestyles.' (Gov) This means that we can use the premium to:

- Develop or add to the PE and sport activities that our school already offers
- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future year.

This funding is jointly provided by the Departments for Education, Health and Culture, Media and Sport, with money going directly to primary school Head Teachers to spend on improving the quality of sport and PE for all their children. Sport funding can only be spent on sport and PE provision in schools.

2024/2025 Sports Premium Strategic Plan

Number of children	
Allocation for September 2023 - July 2024	£
Rationale	

At Honeybourne Primary School we are fully aware of the importance of Sport and PE. We are committed to providing our children with the opportunities to get to participate in a variety of different sports and games in a competitive environment; to foster a love of sport that remains with them for life and opens up opportunities beyond what we offer at school. We provide opportunities to develop healthy, active lifestyles through:

- 1. the engagement of all pupils in regular physical activity the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- 2. the profile of PE and sport is raised across the school as a tool for whole-school improvement
- 3. increased confidence, knowledge and skills of all staff in teaching PE and sport
- 4. broader experience of a range of sports and activities offered to all pupils
- 5. increased participation in competitive sport

The DfE vision is that "all pupils leaving primary school to be physically literate and with the knowledge, skills and motivation necessary to equip them for a healthy, active lifestyle and lifelong participation in physical activity and sport."

The Primary School Physical Literacy Framework, developed by Youth Sports Trust, Sport England, County Sport Partnership Network, Association of Physical Education and Sports Coach UK describe Physical Literacy as, "the motivation, confidence, physical competence, knowledge and understanding that provides children with the movement foundation for lifelong participation in physical activity. Enabling them to be physically literate supports their development as competent, confident and healthy movers."

The improvements in school will provide additional, sustainable improvements to the provision of PE and sport for all pupils and to encourage healthy, active lifestyles as:

- Staff members will have increased their knowledge, skills and confidence teaching Physical Education
- Pupils will be educated about the positives of a healthy active lifestyle
- Pupil will be provided with a broader experience of sports

Intent

At Honeybourne Primary School we feel having a healthy active lifestyle is key to having positive mental health and, as a result, encouraging children to take up daily exercise and healthy eating is paramount. This viewpoint is supported by the Mental Health organisation who have produced a report that supports this. They believe that:

"Physical activity has a huge potential to enhance our wellbeing. Even a short burst of 10 minutes' brisk walking increases our mental alertness, energy and positive mood."

Participation in regular physical activity can increase our self-esteem and can reduce stress and anxiety.

Impact on our mood

Physical activity has been shown to have a positive impact on our mood. A study that asked people to rate their mood immediately after periods of physical activity (e.g. going for a walk or doing housework), and periods of inactivity (e.g. reading a book or watching television) found that the participants felt more content, more awake and calmer after being physically active compared to after periods of inactivity. They also found that the effect of physical activity on mood was greatest when mood was initially low. There are many studies looking at physical activity at different levels of intensity and its impact on people's mood. Overall, research has found that low-intensity aerobic exercise – for 30–35 minutes, 3–5 days a week, for 10–12 weeks – was best at increasing positive moods (e.g. enthusiasm, alertness).

Impact on stress response

When events occur that make us feel threatened or that upset our balance in some way, our body's defences cut in and create a stress response, which may make us feel a variety of uncomfortable physical symptoms and make us behave differently, and we may also experience emotions more intensely. The most common physical signs of stress include sleeping problems, sweating, and loss of appetite. Symptoms like these are triggered by a rush of stress hormones in our body – otherwise known as the 'fight or flight' response. It is these hormones, adrenaline and noradrenaline, which raise our blood pressure, increase our heart rate and increase the rate at which we perspire, preparing our body for an emergency response. They can also reduce blood flow to our skin and can reduce our stomach activity, while cortisol, another stress hormone, releases fat and sugar into the system to boost our energy. Physical exercise can be very effective in relieving stress. Research has found that highly active individuals tend to have lower stress rates compared to individuals who are less active.

Impact on our self-esteem

Exercise not only has a positive impact on our physical health, but it can also increase our self-esteem. Self-esteem is how we feel about ourselves and how we perceive our self-worth. It is a key indicator of our mental wellbeing and our ability to cope with life stressors. Physical activity has been shown to have a positive influence on our self-esteem and self-worth. This relationship has been found in children, adolescents, young adults, adults and older people, and across both males and females.

Impact on mental wellbeing

Physical activity can have a positive impact on mental wellbeing. For more details about how physical activity can help increase wellbeing and prevent or manage mental health problems, read the <u>full report</u>, or get more information about how exercise can improve your mental health on the website: <u>www.mentalhealth.org.uk</u>.

For these reasons, pupils at Honeybourne Primary School deserve high quality physical education experiences. After a period of national lockdown, and the continuing stress of a pandemic, the need for physical and mental wellbeing is more important for our pupils than ever. We therefore propose to spend the 2024- 25 allocation of funding in the following ways:

Sport	Year Group	Objective	Implementation	Cost	Lead	Resourc es	Monitoring	Timescale	Impact milestones (RAG RATE TERMLY) *see end of report for detail
Tournament (wider opportunities)	Years 1-6	To ensure that children have the opportunity to be competitive. To increase fitness levels and teamwork – exposing them to real situations. To further develop children's diverse experiences	Hollymount School to host two tournaments – football and netball. (AS & HS) Children are selected to take part in a tournament that is competitive based in extra-curricular clubs which are held through autumn and spring. (AG, SC)	£1500	SC/AG	Use of the grounds/K ing George playing fields Netball equipmen t Football equipmen t	Data analysis – uptake of clubs Pupil Voice Parent voice Staff voice	Autumn AG & SC to organise clubs in order for children to be selected to take part in a tournament(s) Records analysed of uptake of groups. Spring/Summer Tournaments to be organised	Children are further exposed to competitive sports. Children are able to work effectively as a team. Children are able to further understand tactics and rules and articulate this.

Lunchtime opportunities	CPD for new CSP's Resources to be audited and bought CPD for children – during assemblies – to be delivered (SC) CPD for lunch staff Monitor the impact of play over lunchtime through pupil/adult voice and CPOMS.	£ 2500 lunchtime resources	REC AG SC KS Lunchtime supervisors	Playgroun d resources to be ordered and maintaine d throughou t the year (SC)	Observations of children Child/ adult voice Records of achievement	and hosted. (HS & AS)Autumn TermTrain lead worker and provide CPD on leading play to lunchtime supervisorsSet up zonal systemCPD to be delivered to children how to use the equipment appropriately.Zonal systems to be monitored and pupil feedback to be taken.Spring TermEvaluate the impact of zoning – pupil voice and recording of sanctions	Children will further develop their teamwork - concentrating on the 'affective domain'. Children will articulate confidently about their experiences and wider opportunities they are exposed to. Learnt skills will further develop their understanding in further PE.
						Summer Term	

				00000	1/0			Change zones if needed – based on the children's needs.		
Healthy Living Days	Nursery – Year 6	To focus attention of whole school community on what "healthy body; healthy minds" means. To act as a launchpad each term for new healthy living initiatives	Identified staff to lead school council in planning day – linked to healthy lunchboxes Staff to guide others in events of day Staff to plan and organise events	£2000	KS REC AG SC	Depende nt on day e.g. bouncy castle hire	Pupil and parent voice	Autumn Look at links across curriculum and opportunities to link to healthy living Vote for school council School council meetings to plan Spring Healthy living day A Summer Healthy living day B	Children are able to talk about healthy choices in lifestyle. Children can explain why keeping active is important. An increased proportion of parents value healthy lifestyles for their children. An increased proportion of parents provide their children with healthier options in snacks. Children's can talk about their diet and healthy choices they make.	
	2. Raise the profile of PE and sport across the school as a tool for whole school improvement 3. Increased confidence, knowledge and skills of all staff in teaching PE and sport									

At Honeybourne Primary School all pupils have the opportunity to participate in PE sessions led by their class teacher. Many of our teaching staff have had the opportunity to work alongside coaches in the past to help with their teaching of dance and gym. The teacher is able to develop their own skills as well as their confidence and competence within a particular area.

The school is confident in its teaching of physical education and the PE leads are available to support newly qualified or less confident staff.

Sport	Year Group	Objective	Implementation	Cost	Lead	Resour	Monitori	Timescale	Impact
Swimming	Years 2/3/6	To increase the number of children achieving the 3 national curriculum requirements for water safety at the end of KS2	To provide additional top-up swimming lessons to meet the 3 national curriculum requirements.	£2000	AG/SC	Ces Pool hire Travel	ng Data analysis	Autumn Year 2 and 3 swim CPD staff – swimming handbook and record keeping Records kept of children's progress Summer Year 6 swim Records kept of children's progress PE lead to monitor 1 x swimming session	Records show that an increased proportion of children reach the expected standards for their age (78% could swim 25m using at least one type of swimming stroke).
Staff CPD	All pupils to benefit from increased staff subject knowledge	To increase the understanding of how to assess children within a PE lesson	CPD to be offered to all staff on how to select key performance indicators and what opportunities need to be built within sequences of learning Teachers to implement strategies of assessment in their own practise.	£2500	AG/REC/S C		Staff Voice Planning Assessme nt records	Autumn Meet with PE leads from trust Adapt medium term plans to show exit assessment opportunities	Teachers are able to accurately assess children's achievements in PE. Assessment opportunities support teachers in

			confidently about the next stages for					assessment	judgement
			children based on their assessment.					opportunities and give feedback to PE lead	PE leads are able to talk
								Summer term	about the impact of
								Feedback from teachers	high-quality PE teaching on children's attainment.
Outdoor learning	UPKS2	Provide teachers with knowledge and understanding of how to adapt curriculum plans in order for the children to learn utilising the outdoor areas. Outdoor learning boosts, communicatio n, motivation and physical skills of all children.	AH to be provided with CPD from forest school leads across the Trust. AH to deliver CPD to staff - utilising the curriculum for outdoor learning Medium term plans to be adapted with a focus on outdoor learning. Monitoring of lessons and feedback from pupils and adults.	1000	AG/SC	s r t I F	Monitorin g of medium- term plans, lessons Pupil voice Adult voice	Autumn: CPD to outdoor learning lead Adaptations of curriculum plans CPD to be delivered to teachers Spring: Monitoring of lessons and medium-term plans Summer: Pupil and adult voice – focussing on the benefits of utilising the outdoors.	Children talk confidently about how their learning has been taken outside and the impact this has on them and their understanding Teachers become secure in adapting curriculum plans for meeting the needs of their children. Teachers support one another in utilising the outdoor and talk

Outdoor/indoor resources	Rec – Year 6	To ensure all pupils have access to high quality resources during their lessons. Provide children with high quality continuous provision. To broaden the sporting opportunity available to pupils. To provide children with a range of opportunities to enhance	Audit equipment and place an order to ensure enough equipment is available for PE lessons, wider outdoor learning and daily exercise. A range of apparatus is available for children to apply gross motor skills in their independent learning. Monitor impact on children's physical development. MH to audit results and follow up equipment ready for the following year. Staff questionnaires to be completed about equipment – and what equipment would be needed for the following year.	£2500	REC, AG, SC		Staff questionn aires and pupil interviews	Autumn Audit equipment in line with updated PE curriculum Order equipment	confidently about the impact this has had on their children. Wider sport is well resourced for school clubs, breaktimes and PE lessons. Full range of sport, OAA and enhancement s such as yoga.
4. Broad	er experience	fine and gross motor skills. of a range of s	ports and activities offered to all pup	pils					
At Hone	ybourne Prima	•	ve sports ndeavour to enhance our pupils exp only because we feel it is key to our			-	• • •		

develop healthy lifestyles which they can develop throughout their lives. Our school sits in a locality with poor public health and life chances, the more opportunities our pupils can have to take part in a diverse range of sporting opportunities, the more likely they are to continue these when they are older.

According to Sport England, physical activity can reduce stress and anxiety, with the mastering of new skills often increasing confidence and selfesteem. There is much evidence that physical activity contributes to enjoyment and happiness, and more broadly to life satisfaction, with the element of social interaction often cited as central to this. Taking part in sport is also associated with having a sense of purpose and pride. That self-esteem and confidence are known to increase through short or long term participation because of the opportunity to develop new skills and relationships.

We therefore propose to spend the following proportion of the grant in widening sporting opportunities.

Sport	Year Group	Outcome	Implementation	Cost	Lead	Resour	Monitori	Timescale	Impact
						ces	ng		
Bell Boating and Regatta	Year 5 and 6	To develop team work skills Children understand the dangers associated with water and how to stay safe. To broaden the sporting opportunity available to pupils To experience competition against other schools	Year 5/6 to have 1 full day on the river with qualified helm Class teachers to work alongside coaches to develop their own practice Pupil questionnaire to be given out before and after attending sessions – focus on confidence and resilience. PE Lead available to discuss outcomes and progress with class teachers End of unit a review is completed Progress of children against set learning outcomes	£1000	AG/SC/KS Class Teacher Qualified helms	Use of bell boating equipm ent Travel Instructo r Regatta	Pupil interviews and questionn aires	Spring term Book Bell Boating Summer Term Interview pupils about their experience Monitor impact of team work from children who attend Bell Boating	Year 5 children have experienced water sport. Children have had the opportunity to take part in a regatta.

Residential	Year 5 and 6	To further develop outdoor and adventurous skills. To broaden opportunities. To improve teamwork	Identified staff to liase with headteacher to arrange residential opportunities for all children in Year 5 & 6	4100	REC	To support cost reductio n for all families.	Pupil voice	Autumn Term Booking arrangements to be finalised. Liaise with parents Spring Term/ Summer Term Residentials to take place	Pre and post residential questionnaire
